About Chute Pond
The 147-acre Chute Pond Park was established as an Oconto County Park and picnic area in 1935.

The original Chute Pond Dam was built about 1853 to store water for the logging drives down the Oconto River. In 1935 the old wooden chute dam was replaced. The park has available for campers drinking water, flush and pit toilets, showers, firewood, picnic tables, swimming, hiking trails, fishing, and boat rentals.
