

OCONTO COUNTY HIGHWAY DEPARTMENT

SPECIFICATIONS FOR (2) NEW 2015 - 15,000 GVW TRUCK CHASSIS

Sealed bids will be received by the Oconto County Highway Committee until 10:30 a.m., Wednesday, February 18, 2015 for (2) Two 2015 - 15,000 GVW Truck Chassis.

Bids are to be submitted on proposal forms prepared by Oconto County attached hereto and made a part of this form. Proposal forms must be returned in their entirety to the Oconto County Highway Department. Bids shall be sealed and the outside of the envelope shall be marked "Bid for 15,000 GVW Truck Chassis". Any bids received after 10:30 a.m. Wednesday, February 18, 2015 will be returned unopened.

Bids shall be submitted for the latest current production model truck. *Bids shall include manufacturers and dealers full specification sheets* and any other additional literature, which will aid or benefit the Oconto County Highway Committee in determining the construction, performance or comparative value of the truck.

Prices quoted shall be F.O.B. Oconto, and shall exclude Federal and State tax. A certificate of origin shall be furnished by the successful bidder at the time of delivery.

All supplies or equipment sold to Oconto County Highway Department shall be sold at the risk of the contractor or seller until accepted by the Oconto County Highway Committee. No payment will be made until after inspection and acceptance by the Oconto County Highway Committee or their agent.

The Oconto County Highway Committee further reserves the right to waive small technicalities resulting from omissions or listing of specifications that may apply to some trucks but not to others. The Highway Committee further reserves the right to reject any or all bids, or to accept such bid, or portion of bid, which they deem most advantageous to Oconto County.

It is the intent of these specifications to describe the minimum requirements for 15,000 GVW Trucks capable of meeting Oconto County Highway Department requirements. These specifications detail features that indicate operational preference. These specifications are based on current product awareness. Bidders are invited to offer their manufacturers specifications that most closely comply. The specifications stipulate the minimum acceptable requirements for good engineering design and performance. The specifications also establish the bidders responsibilities to furnish all necessary appurtenances in complete conformance with the requirements stated herein.

Any item not mentioned in this specification which is required for the satisfactory performance of this unit shall be provided by the successful bidder with no additional reimbursement even though it was not directly referred to in this bid. Any additional items provided on the unit above these specified that would add to its longevity, performance and production shall be listed at the end of the specifications. ***Any deviation from specifications are to be listed on a separate sheet attached to the bid document and signed by the dealer or their representative.***

It is specifically understood to be a condition of the acceptance of a bid and the placing of an order that the delivery date specified in such bid is of prime importance, and will be considered in the acceptance of the particular bid.

By order of the Oconto County Highway Committee

Patrick J. Scanlan,
Highway Commissioner
